

VOLUNTEERS

needed for the
expanding your
horizons network
girls' gateway to science, technology, engineering and mathematics

3 Fun-filled hands-on workshops for 5th, 6th, 7th, 8th, and 9th grade girls to explore careers and meet role models.

Science & Mathematics Conference

10.21.17

The 27th annual Expanding Your Horizons conference is scheduled for Saturday, October 21, 2017 at the SIUC Student Center. The all-day conference is intended to provide girls in grades 5 through 9 with hands-on experiences in various areas of science, mathematics, engineering, and technology. The purpose is to increase girls' awareness of career opportunities and to give them contact with role models. Professionals in these fields have already volunteered their time to lead workshops for this important event. We now need volunteers to help make the day a success! Volunteers are a vital part of this conference.

A complimentary lunch will be served to volunteers.

Volunteers are needed to:

- Assist with registration.
- Escort girls between the Student Center and workshops held in other buildings on campus.
- Help participants find their workshops within the Student Center.
- Assist with setting up early in the day (8:00 a.m.)
- Assist with tearing down at the end of the day (1:30-2:30 p.m.)
- General "gopher" as needed during the day.
- Miscellaneous other tasks.

If you are willing to help for all or part of the day, please email Diane Fritcher, dfritcher@siu.edu as soon as possible.

THANK YOU!
