Quizzes/Tests/Homework/Final Unit  
350 points  
Final Exam  
200 points  

Total  
1000 points  

We will follow the standard university grading scale. Please do not use cell phones in class and do not give my cell number to students in my other classes. After the first day students should have a TI 83 or 84 daily. This class is my top priority along with the success of its students. I will schedule outside of my teaching time for help when needed. There will be a basic skills test that the student must score 100% on before they will be given a passing grade. (No exceptions). Make-ups for this test will NOT be given during class time. We will use the text Mathematics for High School Teachers by Usiskin,Peressini, Marchisotto and Stanley ( ISBN: 0-13-044941-5 ) published by Prentice-Hall.
