We will follow the standard university grading scale. Please do not use cell phones in class and do not give my cell number to students in my other classes. After the first day students should have a TI 83 or 84 daily. This class is my top priority along with the success of its students. I will schedule outside of my teaching time for help when needed. We will use the text Mathematics for High School Teachers by Usiskin,Peressini, Marchisotto and Stanley ( ISBN:  0-13-044941-5 ) published by Prentice-Hall.
