

WE ARE ONCE AGAIN OFFERING
- \$50 GIFT CERTIFICATE TO THE TEACHER
WHO BRINGS THE MOST STUDENTS
AND
- MONEY FOR A BUS IF YOUR SCHOOL BRINGS
MORE THAN 25 STUDENTS.

The conference is designed especially for students in grades 5 through 9. Participants will meet young women (and men) from all over southern Illinois who share an interest in science, mathematics, engineering, and technology. They will be able to choose from over **20 hands-on workshops**. In past years, students have tried their hand at creating their own web pages, analyzing the chemistry of M&M's, studying the microbial life in drinking water, programming industrial robots, preparing slides of tissue samples, and more. They have met female **role models** in audiology, aviation, optometry, physical therapy, forensic science, chemistry, microbiology, plant biology, veterinary medicine, computers, forestry, zoology, mechanical engineering, electrical engineering, industrial technology, mathematics, and physics. As workshops come in we will post them on our website and we encourage you to check it often - math.siu.edu/eyh/. Early registration fee is \$10. **NEW this year!! Pay by credit card online.**

We will also be giving a **\$50 gift certificate** to the teacher who brings the most students. If your school brings more than **25 students**, we will be able to **provide money for a bus!**

Parents and teachers may also attend as observers in many of the workshops. At the discretion of the workshop leader, they may participate along with the students.

Feel free to duplicate and share this information with math and science teachers in your school. Students may come on their own or as a class group. Contact SIUC Department of Mathematics at eyhmath@siu.edu if you have any questions about the conference.

We hope to see you in November!

Please note, SIU is committed to gender inclusivity. As such, this event is open to all persons, including boys.
