

ASA DataFest™

Southern Illinois University, Carbondale

April 13-15, 2018

DataFest is a competition to discover the hidden truth in a large, complex data set

*** Is there a story to tell? ***

Spend a weekend working in small groups around the clock for 48 hours to find the insight and meaning in a large and messy dataset rich with information

Win prizes, meet other students who share similar interest in data and learn more about data science/statistics

✚ All Undergraduate Majors welcome

✚ Teams of 2-5 students work onsite gleaning insights from a dataset

Awards presented for

✚ Best Visualization

✚ Best in Show

✚ Best Use of External Data
